Four Firms Dissolve.

Four stock exchange firms announced their dissolution today. The business of vision of the firms will be continued by a reorganization of the partnership. The other concerns, it is understood will wind up their affairs permanently.

A large number of partnership dissolutions is expected at the end of the year. Dull times in Wall street have reduced the price of stock exchange seats from \$20,000 to less than half that amount and have made it difficult for many stock brokers to earn a living. Trading in stocks for the month just ended was the smallest for any month since May, 1897. The total number of shares exchanged for Novamber was 75,777,449.
